

Join a Committee

The Clark County Medical Society (CCMS) invites all members in good standing to participate in one or more of the standing committees. This offers you an opportunity to work with other physicians and influence CCMS policies on issues that interest you.

You may choose to participate in more than one committee. We solicit active participation from committee members to achieve the most success in shaping the CCMS. Please check the committees you are most interested in. You will receive notification on which committees you were selected to join. Committee assignments will begin September and end in June of the following year.

If you want to be considered for a trustee position, you must have two or more years of current membership in CCMS. It is also helpful, though not required, if you have served on a committee previously and understand the structure and mission of the society. Please indicate that you would like to be considered for a Board of Trustees position by calling the office at 702.739.9989

You may fax or email this form to CCMS at 702-739-6345 or loretta.moses@clarkcountymedical.org.
